

CONTENTS

1) **Introduction**

- introduction on standard model of particle ($U(1) \times SU(2) \times SU(3)$)

2) **Proton-Proton scattering**

- Hadronic cross section
- Partonic cross section
- Parton Distribution Function (PDF)

3) **Underlyng event in proton-proton scattering**

4) **LHC & CMS**

5) **Observable to study the underlying event and multiple Interaction**
